

BIS and BJS Covid-19 Reopening Risk Assessment

Activities Covered by this Assessment	Full Reopening of schools during COVID 19 (September 2020)		
Site Address / Location	Burbage CE Infant and Junior School	Department / Service / Team	CFS and Traded Services

Note: A person specific assessment must be carried out for young persons, disabled staff and new and expectant mothers conducting this activity

Every setting should carry out a risk assessment before opening. The assessment should directly address risks associated with coronavirus (COVID-19), so that sensible measures can be put in place to control those risks for children and staff. All employers have a duty to consult employees on health and safety, and they are best placed to understand the risks in individual settings.

Person becomes unwell during the day. Please refer to: <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools> What happens if someone becomes unwell at an educational or childcare setting?

Attendance: No one with symptoms should attend a setting for any reason. *All children are expected to attend their education setting*, unless they are presenting Covid symptoms, self-isolating, or they are clinically extremely vulnerable (in which case they should follow medical advice). Where the child, young person or staff member tests positive, the rest of their class or group within their childcare or education setting should be sent home and advised to self-isolate for 14 days.

It is advised that schools carry out an inspection of the premises before opening and record the findings.

KEY

Changes to August 20 Risk Assessment

Additions to August 20 Risk Assessment

Hazard (Something with a potential to cause harm)	Who might be Harmed & How?	Existing Controls (Consider Hierarchy of Control)	Initial Risk Rating (S x L)			Further Controls Required (Consider Hierarchy of Control)	Final Risk Rating (S x L)			Action Required		
			Severity	Likelihood	Risk Rating		Severity	Likelihood	Risk Rating	Who (Initial)	Date By: (--/--/--)	Done ?
Staff exiting cars in staff car park	Staff, visitors and contractors. Reduced infection control which may result in spread of COVID19	<ul style="list-style-type: none"> Staff are encouraged to cycle or walk to work. Courtesy when alighting cars to maintain 2m distance. Staff to use different entrances to enter the building to avoid congestion, maintaining social distancing wherever possible. 										
Entry to site	Staff, pupils, parents/guardian, visitors and contractors. Reduced infection control which may result in spread of COVID19	<ul style="list-style-type: none"> Social distance of 2m in queue outside. Temperatures taken before entry to site. <i>Staff taking temperature to wear clinical mask and hold thermometer at arms length.</i> Visitors to site are restricted. Only visitors with prearranged appointments are allowed on site, <i>except in emergency.</i> <i>All visitors must sign in and provide contact details.</i> <i>Guidance given on arrival to all visitors.</i> Visitors are asked if they have any symptoms of COVID19 or have had contact with anyone who has symptoms of COVID19, before they arrive on site. Signage at 										

		<ul style="list-style-type: none"> door. Keep windows in entrance closed Operate a one in one out system into entrance area, with signage. 												
Poor hygiene practice	Staff, student and visitors may become infected.	<ul style="list-style-type: none"> Posters are displayed throughout the school in handwash areas advising all pupils and staff to wash their hands after using the toilet, before and after handling food, after touching any animals and any other actions which may increase the risk of infectious disease, such as coughing or sneezing. <i>Any face coverings for pupils to be removed on entrance to site. Disposable masks to be put in the bin, and non disposable to be put in a plastic bag and kept securely in school bag until the end of the day</i> <i>Parents/Carers to wear masks at drop-off and pick-up while on school site.</i> Sufficient amounts of soap and washing liquids, warm water and paper towels are supplied in toilets and kitchen areas. Alcohol-based hand gel and wipes to be supplied <i>around school</i> Water supply checked to all toilet areas and remedial action taken if necessary Pupils and staff are encouraged to wipe their mouths and noses with 				<ul style="list-style-type: none"> SLT to review the Government guidance daily (Coronavirus outbreak) and take relevant action when required. 								

		<p>tissues after sneezing or coughing, and to dispose of these using the lidded bins provided around the school.</p> <ul style="list-style-type: none"> • <i>Tissues available in all classrooms</i> • Pupils educated through class time on best practice for personal care & protecting others <i>in order to build handwashing into school culture.</i> • <i>Young children or those with additional needs who struggle to wash hands effectively can use skin friendly wipes.</i> • Cleaners are employed by the school to carry out <i>regular</i>, thorough cleaning that follows national guidance, is compliant with the control of substances hazardous to health (COSHH), and the school's Health and Safety Policy. <i>Increased cleaning times throughout the day.</i> 										
<p>Social distancing not being carried out at drop off time</p>	<p>Staff, pupils, parents/guardian, visitors and contractors. Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> • Drop off times are staggered. • Arrangements for drop off are communicated to staff, pupils and parents/guardian in advance. • Only one parent/guardian attends the school. • Access to site and pupils' classrooms are communicated to pupils, parent and guardian before arrival to the site. • Direct access to the pupils 				<ul style="list-style-type: none"> • Children at infants to join allocated teacher in playground. • Children at Juniors to come straight to firedoor into classrooms. 						

		<p>allocated classroom if available. i.e. final emergency exits.</p> <ul style="list-style-type: none"> • <i>One-way systems are used around the playground for parent drop off (BIS)</i> • Signage is installed i.e.  										
Use of cloakroom/ toilet areas	<p>Staff and pupils Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> • Pupils remain in their outdoor clothing until they are in their allocated classroom. • <i>Limit items brought to school</i> • Teacher or member of staff to supervise toilet usage and inform cleaning staff of any issues. (See cleaning hazard and controls). • One in one out for toilets at difficult times of the day. • Each bubble to be allocated their own toilet or cubicle. 										
Social distancing not being carried out within the classroom	<p>Staff, pupils, visitors and contractors. Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> • Arrangements for the day are communicated to staff, pupils and parents/guardian. • Staff and pupils remain in <i>class size bubbles</i>. • <i>All teaching to take place as far as possible within classrooms or outside.</i> • Teachers (and other staff) are allocated to a group and remain with their allocated group, as far as possible, during the day and on subsequent days. 				<ul style="list-style-type: none"> • Anyone showing symptoms or in contact with someone with symptoms not to be in school until –ve test or self-isolation. • Regular handwashing. • Children and staff allowed to wear masks if wish. 						

		<ul style="list-style-type: none"> • <i>Staff working across bubbles limited as far as possible, and work with small groups. Socially distancing where possible.</i> • The bubble distance themselves from other groups. • <i>Juniors - Desks are placed as far apart as possible and facing forwards.</i> • <i>Infants – Small groups of 4. Chairs facing one another to be at least 2m apart.</i> • Pupils are allocated a desk and are seated at the same desk each day. • Pupils remain in the same classroom throughout the day. • Any equipment used is cleaned after use. • Staff not in bubble socially distance from all members of bubble at all times (2m). 											
Sharing Classrooms	<i>Staff, pupils. Reduced infection control which may result in spread of COVID19</i>	<ul style="list-style-type: none"> • <i>Limit occasions when classrooms are shared across groups.</i> • <i>Where rooms are shared, cleaning of desks, door handles, and other resources between groups.</i> 				<ul style="list-style-type: none"> • Limit the numbers of children working in these groups. Only use in very limited circumstances. 							
Sharing equipment	Staff, pupils, visitors and contractors. Reduced infection control which may result in spread of COVID19	<ul style="list-style-type: none"> • Pupils do not bring in equipment from home/share equipment • <i>Teaching resources kept within the bubble, and regularly cleaned. Any equipment used across bubbles cleaned meticulously and left for 72 hrs before use by another bubble.</i> 				<ul style="list-style-type: none"> • Yr 6 children or staff to wipe desks and equipment regularly with wipes. • Yr6 children instructed not to share resources. 							

		<ul style="list-style-type: none"> • <i>Any outdoor equipment cleaned between bubble use.</i> • Soft toys and furnishings that are difficult to clean are removed from the classroom before reopening. • Small, intricate items that are difficult to clean are removed from the classroom before the school reopens. 												
<p>Social distancing not being carried out at break times</p>	<p>Staff, pupils, visitors and contractors Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> • Breaks are staggered, and timings identified and communicated. • Pupils to wash hands before and after eating/drinking. • <i>Class bubbles</i> maintained and not mixed. • Movement around school <i>limited</i> • Allocation of dedicated areas outside for <i>class bubbles</i>. • Levels of supervision considered, and additional information needed for supervisors. • Procedures identified when First Aid is required. • Activities considered, and the range of equipment reduced to minimise risk. • At wet breaks stay in classrooms. • Use of toilets to ensure that social distancing is maintained as far as practicable, consider how numbers using the facilities will be monitored. • Hand washing arrangements/use of sanitiser provision. 												

		<ul style="list-style-type: none"> • Flexibility on length of breaks • How these periods are monitored for effectiveness and how issues are reported. 																	
Social distancing not being carried out at lunch time	Staff, pupils, visitors and contractors Reduced infection control which may result in spread of COVID19	<ul style="list-style-type: none"> • All the potential control measures suggested for break times. • Pupils to wash their hands before and after eating and encouraged not to touch their mouth, eyes and nose. • All food preparation and eating areas are thoroughly cleaned and disinfected before and after use. • Food preparation limited to packed lunches in the first instance • Any cutlery or cups brought from home and kept in child's packed lunch box. No cutlery or cups used as part of school prepared packed lunch • Communication with Catering provider (External or LTS Catering). • Cleaning regimes to be established for after eating packed lunches. 																	
Social distancing not being carried out at pick up	Staff, pupils, parents/guardian, visitors and contractors. Reduced infection control which may result in spread of COVID19	<ul style="list-style-type: none"> • Pick up times are staggered. • Arrangements for pick up are communicated to staff, pupils and parents/guardian in advance. • Only one parent attends the school (Infants) • Parents to stay 2m apart. • Egress to schools and classrooms are communicated to pupils/parent before arrival to the site. • One-way systems are used around 																	

		<p>the site (Infants)</p> <ul style="list-style-type: none"> • <i>Classes use 3 different routes out.</i> • Signage is installed i.e. 										
Outdoor play/PE	<p>Staff and pupils Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> • Play equipment is cleaned and disinfected between each group of users • Teacher ensuring social distancing is in place. • Classes allocated an area to use outdoors and stay there. 										
Carrying out 1st aid	<p>First Aider Person being treated.</p> <p>This activity requires the 2mtr social distancing rule to be broken. This could lead to either person involved in becoming infected with COVID-19 through close contact with an asymptomatic carrier, transmitting the virus through bodily fluids or respiratory droplets entering the person's eyes,</p>	<ul style="list-style-type: none"> • <i>Ensure parents know not to send children if they or anyone at home is presenting Covid Symptoms.</i> • <i>Temperatures of all to be taken before entering the site.</i> • A first aider will NOT be treating a person who has the symptoms of COVID-19 as specified by the NHS and Government unless life threatening condition use St John's ambulance guidance (link at end of document). If need for resuscitation, only use compressions not rescue breaths. • If a child presents symptoms of COVID-19 they will be isolated 2m away from people, in a spacious room identified for this purpose and parents called to collect them. • Persons who have symptoms will isolate for 7 days and will not be in school. • The first aider will wash their 				<ul style="list-style-type: none"> • Ensure a stock of surgical face masks that conform to BS EN 14683:2019 Type IIR are procured. These should be procured through the school's normal supply chain, should this fail they may be able to be procured from the local resilience forum (LRF). (Please see PPE suppliers list P21 • Ensure aprons, nitrile/latex disposable gloves and splash resistant goggles are procured. These should be procured through the school's normal supply chain, should this fail they may be able to be 						

	<p>nose or mouth.</p> <p>The First aider may have an allergic reaction to latex gloves.</p>	<p>hands for at least 20 seconds with soap and water.</p> <ul style="list-style-type: none"> • Nitrile Gloves conforming to BSEN455 will be worn. • Latex gloves will be avoided to remove the risk of allergic reaction. • The first aider will cover any cuts on their hands with waterproof plasters. • The first aider will wear a fluid resistant surgical mask and avoid putting their fingers in their mouth and touching their face. • The first aider will avoid touching any part of a dressing that will come into contact with a wound. • The first aider will wear goggles or visor to prevent bodily fluids being splashed into the eyes. • After each first aid treatment is given all equipment and surfaces, including goggles used will be cleaned down using either a combined detergent disinfectant solution at a dilution of 1000 parts per million (ppm) available chlorine (av.cl.) or a neutral purpose detergent followed by disinfection (1000 ppm av.cl.) the google and visor will be rinsed with clean water after being disinfected. • After using the face masks, aprons and gloves they will be correctly 				<p>procured from the local resilience forum (LRF)</p>						
--	---	--	--	--	--	---	--	--	--	--	--	--

		<p>doffed and placed straight into a clinical waste bag and the bag tied. The bags will then be stored in a locked room for 72 hours before putting them into the external waste skip/bin.</p> <ul style="list-style-type: none"> • Face masks and gloves will only be used for 1 treatment of first aid they will not be used to treat a second person requiring first aid. • First aiders have been given information on how to correctly don and doff their PPE. • No food will be stored or eaten in the first aid room. • After first aid treatment is given and cleaning has been completed the first aider will wash their hands with soap and water for at least 20 seconds before commencing any further work. • There is a dedicated room for first aid that will be used solely for first aid treatment to help prevent bodily fluids contaminating other parts of the building. 									
<p>School not engaging with Track and Trace requirements</p>	<p><i>Staff, pupils, parents/guardian, visitors and contractors. Wider Community.</i></p> <p><i>Unable to facilitate</i></p>	<ul style="list-style-type: none"> • <i>Make staff and parents aware of responsibility not to attend if symptomatic and how to book tests.</i> • <i>Request test results immediately</i> • <i>All visitors need to sign in. Records kept</i> • <i>Rigorous records of all groupings and any close contact across</i> 				<ul style="list-style-type: none"> • <i>Ensure all actions are timely and provide any requested information immediately.</i> 					

	<i>information for Track and Trace puts all at risk.</i>	<i>bubble groupings.</i>										
		<ul style="list-style-type: none"> • <i>Use LA flow diagram and follow advice from Public Health following positive cases.</i> 										
Intimate care		<ul style="list-style-type: none"> • The staff member providing the intimate care will wash hands thoroughly before and after providing intimate care, using soap and water for at least 20 seconds. Use alcohol-based hand sanitiser if soap and water is not available. • NHS hand washing posters have been installed above sinks to give information on good hand washing techniques. • Face coverings (will not be worn during this activity by those who may not be able to handle them as directed (for example, young children, or those with special educational needs or disabilities) as it may inadvertently increase the risk of transmission. • Children whose care routinely already involves the use of PPE due to their intimate care needs will continue to receive their care in the same way, using the same PPE as they have always done for this task. • If a child becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home, a fluid-resistant surgical 				<ul style="list-style-type: none"> • Ensure a stock of surgical face masks that conform to BS EN 14683:2019 Type IIR are procured. These should be procured through the school's normal supply chain, should this fail they may be able to be procured from the local resilience forum (LRF). (Please see PPE suppliers list P21 • Ensure aprons, nitrile/latex disposable gloves and splash resistant goggles are procured. These should be procured through the school's normal supply chain, should this fail they may be able to be procured from the local resilience forum (LRF) 						

		<p>face mask should be worn by the supervising adult if 2 metres social distancing cannot be maintained. The surgical masks used conform to BS EN 14683:2019 Type IIR.</p> <ul style="list-style-type: none"> • After using the face masks, aprons and gloves they will be correctly doffed and placed straight into a clinical waste bag and the bag tied. The bags will then be stored in a locked room for 72 hours before putting them into the external waste skip/bin. • If contact with the unwell child is necessary, then nitrile/latex disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn. 										
Child's behaviour causes a risk.	Children and staff may be hurt, or their safety compromised by behaviour of child. Positive handling not possible.	<ul style="list-style-type: none"> • If a child is known to spit, staff may choose to wear gloves, goggles or visor. • Purchase waterproof overalls for staff to wear should they choose to when working with pupils known to spit or who have positive handling plans. • <i>Behaviour Policy reviewed to assess additional risk and to update to Covid arrangements.</i> 				<ul style="list-style-type: none"> • Take early advice from Inclusion Team, and implement • If child already has a positive handling plan, before they return to school, risk assessment needs to be updated 						
Social distancing	Staff, pupils,	<ul style="list-style-type: none"> • Staff to observe social distancing 				<ul style="list-style-type: none"> • Limit office staff in at 						

<p>not being carried out during the use of Staff facilities</p>	<p>visitors and contractors Reduced infection control which may result in spread of COVID19</p>	<p>from each other.</p> <ul style="list-style-type: none"> Consider the number of staff that can be accommodated in the area to achieve social distancing and rearrange the furniture where possible Consider the use of another room in addition to usual one Staggering of break times to reduce numbers Use of signs to inform of hand washing prior to entering/using facilities. Staff are to have their own crockery and cutlery and not to use shared items from the staff room. Reusable sponges are removed Cleaning of room between use Operation of dishwasher/water dispensers' procedures 				<p>any one time.</p> <ul style="list-style-type: none"> Identify rooms that must be one in one out. All staff meetings to be done via zoom with opportunities to stay at home. 								
<p>Assembly</p>	<p>Staff and pupils Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> Assemblies/Collective Worship (CW) are only to take place remotely, in classrooms. 												
<p>Cleaning</p>	<p>Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> A detailed cleaning schedule will be implemented throughout the site, ensuring that contact points, e.g. worksurfaces, door handles, taps etc. are all thoroughly cleaned and disinfected regularly. 												

		<ul style="list-style-type: none"> • Hard surfaces to be cleaned with soap and water prior to disinfecting. • Disinfecting should be performed using either a combined detergent disinfectant solution at a dilution of 1000 parts per million (ppm) available chlorine (av.cl.) or a neutral purpose detergent followed by disinfection (1000 ppm av.cl.) the visor will be rinsed with clean water after being disinfected. • Extra attention is to be given to frequently touched areas and surfaces, e.g. doors, toilets, door handles, phones, light switches and door fobs, etc. • Hand towels and hand wash are to be checked and replaced as needed by the Premises Officer and cleaning staff. • Enhance the cleaning regimes for toilet facilities, particularly door handles, locks and the toilet flush, etc. • Only cleaning products supplied by the school are to be used. • Please refer to the school's COSHH risk assessments for further control measures in relation to cleaning chemicals used. • PPE required for cleaning will be noted in the outcome of the COSHH risk assessments 												
--	--	---	--	--	--	--	--	--	--	--	--	--	--	--

		<p>conducted for cleaning chemicals used.</p> <ul style="list-style-type: none"> Bin liners should be used in all bins and waste bins should be emptied into the external waste bin/skip. 																		
Carrying out daily building maintenance	<p>Staff and pupils. Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> General maintenance is carried out when the school is closed to staff and pupils. (See lone working risk assessment). Only essential maintenance is carried out during school opening hours. Staff are informed of any maintenance being carried out in communal areas, toilets, etc., and the area is cordoned off. Social distancing is maintained throughout working procedures. 																		
Contractors working on site	<p>Staff, pupils, parents/guardian, visitors and contractors. Reduced infection control which may result in spread of COVID19</p>	<ul style="list-style-type: none"> Wherever possible, contracted work is carried out when the school is closed to staff and pupils. If it needs to be carried out in the day, it must be away from any staff and pupils and the area cordoned off. Any documentation required is sent/received prior to the contractor arriving on site. Safe systems of work/Risk assessment, which include COVID19 control measures, are 																		

		received and agreed by the school before work commences.																
Emergency procedures	Staff, pupils, parents/guardian, visitors and contractors. Reduced infection control which may result in spread of COVID19	<ul style="list-style-type: none"> Changes to emergency evacuation procedures are communicated to all persons on site i.e. changes of egress from building. Emergency evacuations take place following social distancing principles as far as is reasonably practicable. (In an emergency risk to life takes precedence). Staff, pupils, visitors and contractors' social distance at assembly areas (2m separation) as far as is reasonably practicable. 																
Curriculum Considerations	<i>Staff, pupils, parents/guardian, visitors and contractors. Reduced infection control which may result in spread of COVID19</i>	<ul style="list-style-type: none"> <i>No residential trips to be undertaken. Day trips can be but coach travel needs to follow guidance.</i> <i>MUSIC – groups limited to 15. Seated in a single line facing front with teacher socially distanced at 2m. Wind instruments not shared. No mass singing of larger than these groups.</i> <i>PE – Outdoors wherever possible. All equipment cleaned between groups. No contact sports.</i>

During this activity, what could go wrong resulting in an emergency situation?	<ol style="list-style-type: none"> 1. Child displays symptoms with CV19 2. Child from teaching group who has been sent home becomes confirmed case. 3. Staff becoming ill and self-isolating.
How could this emergency situation be prevented / controlled?	<ol style="list-style-type: none"> 1. Isolate child until collected. 2. All children in that teaching group to be sent home and told to self-isolate for 14 days. 3. Follow self-isolating guidance, ensure that reporting of illness procedures well understood.
Who should respond to a potential emergency situation and how? Have staff been trained to respond to this emergency situation?	<ol style="list-style-type: none"> 1. Staff to supervise child until collected where 2m rule cannot be implemented PPE to be worn. 2. Make staff aware of guidance in link below, develop guidance on internal monitoring of staff and pupils on self-isolation and student attendance recording. 3. Follow guidance: https://www.gov.uk/government/publications/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings Consider reallocating staff or capacity of school to remain open. Consult with LA and/or Trust on closure.
Could any non – routine changes affect the safety arrangements in place for this activity? (E.g. weather, people, equipment etc.) What can be done?	Additional pupil numbers in phase 2 and 3 – review procedures and social distancing, refer to any new government guidance.

Potential Severity of Harm	High Death, paralysis, long term serious ill health.	Medium	High	High
	Medium An injury requiring further medical assistance or is a RIDDOR incident.	Low	Medium	High
	Low Minor injuries not resulting in any first aid or absence from work.	Low	Low	Medium
		Low The event is unlikely to happen.	Medium It is fairly likely to happen.	High It is likely to happen.
Likelihood of Harm Occurring				

Risk Rating Definitions	
Low	This is an acceptable level of risk. No further controls are required as the risk rating cannot be reduced any further. However, it is advised that continual monitoring occurs in order to ensure that no changes / deviation of control measures occur.
Medium	It is advised that further controls are implemented to reduce the risk rating to as low a level as possible. If the risk cannot be reduced to lower than a medium, then on site monitoring should occur to ensure that all stipulated controls are being adhered to.
High	This is an unacceptable risk rating. Urgent interim controls should be implemented to reduce the risk so far as is reasonably practicable. If the risk rating cannot be reduced to lower than a High , then a documented safe system of work should be implemented to control the activity. It may be necessary to seek further professional advice. Serious considerations should be given to the validity of carrying out the activity at all. Regular monitoring of the activity should occur.
