

BURBAGE GROVE ROAD SCHOOLS FEDERATION

ONLINE SAFETY POLICY 2025-2028

The governing board adopted this policy: 09.12.25

Chair of Governors:

Signed:

Date:

What we do

At Burbage Grove Road Schools Federation, we encourage pupils and staff to use technology to support teaching and learning, including access to The internet. We also encourage and continue to explore ways of using technology to better streamline and improve our administration tasks. This Online Safety Policy for Burbage Grove Road Schools Federation is designed to help to ensure safe and appropriate access and usage for all digital technologies across the school community.

For the purpose of this policy, digital technologies are defined as electronic tools, systems, devices and resources that generate, store or process data that can include, but are not restricted, to the following:

- Computers
- Laptops
- Websites
- Email
- Social media
- Mobile phones
- Tablets
- Blogs
- Podcasts
- Downloads
- Forums

The Education and Inspections Act 2006 empowers headteachers, to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other online safety incidents covered by this policy, which may take place outside of the school, but are linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data. In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The school will deal with such incidents within this policy as well as associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place in and out of school. This aligns with the guidance provided in the latest version of *Keeping Children Safe in Education (KCSIE 2025)*, which emphasises safeguarding and the responsible use of technology.

Why do we have an Online Safety Policy?

With the ever-increasing manner in the way technology is being used in education, it is paramount that as educators we have in place policies and strategies that help us to keep both staff and pupils safe. We have highly functional school-based and personal devices that give us access to powerful digital tools wherever we go. The internet has the capacity to instantly connect us to content and to each other, but, due to its vast nature and relative immaturity as a medium, also presents unprecedented levels of risk to young people. Some of the dangers pupils may face include:

- Access to illegal, harmful or inappropriate content;
- Access to content that promotes extremism and/or radicalisation;
- Losing control over personal information/images;
- The risk of being groomed by those with whom they make contact, exposing them to physical and sexual risk;
- Exposure to, or engagement in cyber-bullying;
- An over-reliance on unreliable sources of information and an inability to evaluate the quality, accuracy and relevance of information on The internet.

Other school policies

This policy should be read in conjunction with other relevant school policies:

- Acceptable Use for Adults
- Acceptable Use Agreement for Pupils
- Child Protection Policy
- Child-on-Child Abuse Policy
- Anti-Bullying Policy
- PSHE Policy
- Guidance for Safer Working Practice (Code of Conduct)
- UK-GDPR Policy
- AI Policy

Legal frameworks

It is the user's responsibility to ensure they are compliant and work within all UK and EU applicable legislation in regards to the safe and legal use of ICT in schools. This includes but is not limited to the following:

- The Sexual Offences Act 2003
- The Racial and Religious Hatred Act 2006
- The Computer Misuse Act 1990
- The Police and Justice Act 2006
- Communications Act 2003
- UK GDPR and the Data Protection Act 2018
- Malicious Communications Act 1988
- Copyright, Design and Patents Act 1988
- Public Order Act 1986
- Protection of Children Act 1978
- Obscene Publications Act 1959 and 1964
- Protection from Harassment Act 1997
- The Regulation of Investigatory Powers Act 2000 (RIP)
- The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000
- Education and Inspections Act 2006
- Equality Act 2010
- Education Act 2011

Governor responsibilities

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the governors receiving regular information about online safety incidents and monitoring reports. The school's Safeguarding Governor will monitor compliance with this policy by:

- Holding meetings with the Online Safety Co-ordinators (Deputy Headteachers)
- Attending online safety group meetings
- Monitoring of online safety incident logs
- Monitoring of filtering/change control logs
- Reporting to relevant meeting

School leadership and management responsibilities

The Executive Headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day-to-day responsibility for online safety will be delegated to the school's Deputy Headteacher. The Executive Headteacher and another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. They are responsible for ensuring that the school's Deputy Headteacher and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues as relevant.

The Executive Headteacher/Senior Leadership Team will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also to support those colleagues who take on important monitoring roles.

The Designated Safeguarding Lead (DSL) responsibilities

Details of the school's Designated Safeguarding Lead (DSL) are set out in our Child Protection Policy.

The DSL takes lead responsibility for online safety in school, in particular:

- Supporting the Executive Headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school;
- Working with the Executive Headteacher, ICT support provider (Primary World) and other staff, as necessary, to address any online safety issues or incidents;
- Ensuring that any online safety incidents are logged and dealt with appropriately in line with this policy;
- Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school Behaviour Policy;
- Updating and delivering staff training on online safety;
- Liaising with other agencies and/or external services if necessary.

Teaching and support staff responsibilities

All staff shall make themselves aware of the content of this policy and attend relevant online safety training. Staff shall be responsible for contributing to the positive re-enforcement of e-safe behaviours through their day-to-day interaction with pupils and technology. Staff should act as good role models in their use of ICT, The internet and mobile devices.

Where personal devices are allowed, all teaching staff shall ensure that pupils' use of these devices is for legitimate educational purposes and not for texting, accessing social networking sites or recording audio, video or still imagery without permission.

All members of staff are provided with a school email address. Electronic communications with students, parents/carers and other professionals will only take place via work-approved communication channels, eg. via a school-provided email address, Dojo account or telephone number. Staff are advised to ensure that business correspondence is received to and sent from the school email address or Dojo account. This is to protect staff's privacy and ensure that school business is kept separate from private correspondence.

Parent and carer responsibilities

Parents and carers may have a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring/regulation of their children's online experiences. Parents can often underestimate how often children and young people come across potentially harmful and inappropriate material on The internet and can be unsure about what they should do about it.

At Burbage Grove Road Schools Federation, we will therefore seek to provide information and awareness to parents and carers through:

- ParentMail, Dojo, newsletters, our website and other digital communications
- Parents' evenings

System management responsibilities

The school, in conjunction with their ICT support provider (Primary World), will be responsible for ensuring that their infrastructure/network is as safe and secure as is reasonably possible and that procedures set out within this policy are implemented:

- There will be regular reviews and audits of the safety and security of ICT systems;
- All users will have clearly defined access rights to the ICT systems of the school. This will be defined and accountable by the respective ICT support provider (Primary World);
- Users will be made responsible for the security of their username and password; must not allow other users to access the systems using their login details; and must immediately report any suspicion or evidence that there has been a breach of security to the school's Data Protection Officer.

The administrator passwords for the ICT system must also be available to the Executive Headteacher and kept in a secure, physical (eg. fire safe) or electronic location software with encrypted storage. The school, in conjunction with the ICT support provider (Primary World), will use a sufficient Internet filtering system to restrict access to certain materials, adhering to current government guidelines and recommendations. However, the school is aware that children must be educated in how to deal with inappropriate material.

Pupil responsibilities

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety/digital literacy is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities. Online safety should be referenced in all areas of the curriculum and staff should reinforce online safety messages whenever ICT is being used.

A planned online safety programme will be provided as part of both ICT and PSHE lessons and will be regularly revisited. This will cover the use of ICT both in and outside school and will include:

- the safe and responsible use of The internet
- the safe and responsible use of mobile devices
- the safe and responsible use of social media
- the management of digital identity

Whenever The internet is used for research, pupils should be taught to be critically aware of the content they access online and be guided to validate the accuracy of information. It is accepted that pupils may need to research topics (eg. racism, drugs and discrimination) that would normally result in Internet searches being blocked. In such a situation, staff can request a temporary removal of those sites from the filtered list for the period of study. Any request to do so should be auditable, time-limited and with clear reasons given.

Responding to incidents of abuse and misuse

At Burbage Grove Road Schools Federation, we understand the importance of acting on reported incidents of abuse and misuse of our ICT systems in school. The incidents may involve illegal or inappropriate activities. Burbage Grove Road Schools Federation actively encourages a safe and secure approach to the management of the incidents.

Pupils are encouraged to report any incidents immediately to a member of staff. Staff will liaise with the Senior Leadership Team and the Designated Safeguarding Lead, ICT support as necessary to investigate the alleged incident and establish evidence of any breach or wrongdoing. Staff will:

- work with any pupils involved to resolve issues and educate users as necessary.
- inform parents/carers of the incident and any outcomes;
- where the alleged incident involves staff misuse, the Executive Headteacher should be informed;
- outcomes of investigations will be reported to the Executive Headteacher and to external services where appropriate (e.g. Social Services, Police Service, the Child Exploitation and Online Protection Service). The action taken will depend on the individual circumstances, nature and seriousness of the specific incident;
- where the alleged incident involves misuse by the Executive Headteacher, the Chair of Governors should be informed.

Artificial Intelligence (AI) and Generative AI in Education

As technology advances, the use of Artificial Intelligence (AI), including Generative AI tools, is increasingly incorporated into educational settings to support learning, creativity, and engagement.

The school is committed to promoting the responsible, ethical, and safe use of these AI technologies by both pupils and staff. Users should be aware when interacting with or producing AI-generated content, understanding that such outputs may not always be accurate, unbiased, or appropriate. It is essential to critically evaluate AI-generated information, verify it against reliable sources, and respect copyright and data privacy regulations.

AI should never be used to plagiarise, deceive, or generate harmful or inappropriate content. Importantly, users must not input or share any personal or sensitive data into AI tools unless explicitly authorised and in accordance with the school's data protection policies.

The school will provide ongoing training to raise awareness of the benefits, limitations, and ethical considerations associated with AI, especially Generative AI. Monitoring of AI usage will be carried out to prevent misuse and ensure responsible application. The school recognises the importance of staying informed about technological developments and will regularly review its guidance on AI in line with government recommendations from GOV.uk to ensure the safe and ethical integration of AI into the school community.

Acceptable Use Agreement for Governors and Volunteers

ICT and related technologies such as email, The internet and mobile devices are an expected part of working life in school. This agreement is designed to ensure that Governors and volunteers are aware of their professional responsibilities when using any form of ICT.

Before becoming school ICT users, you are always asked to sign this policy and adhere to its contents. Any concerns or clarification should be discussed with the Executive Headteacher.

General:

- I have read the school Online Safety Policy;
- I will comply with the ICT system security and not disclose any passwords provided to me by the school or other related authorities;
- I will not install any hardware or software without the permission of the online safety lead or the technical support team (Primary World);
- I understand that it is a criminal offence to use a school ICT system for a purpose not permitted by its owner;
- I will only take images of pupils and/or staff for professional purposes in line with school policy;
- I will not distribute images outside the school network/learning platform without the permission of the Executive Headteacher;
- I will report any incidents of concern regarding children's safety to the Online Safety Co-ordinator, the Designated Safeguarding Lead or Executive Headteacher.

Wi-Fi/Internet use:

- I will only use the school's email/Internet/Intranet and any related technologies for professional purposes, or for uses deemed 'reasonable' by the Executive Headteacher or Governing Body;
- I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory;
- I understand that all use of The internet and other related technologies can be monitored, logged and can be made available, on request, to the Executive Headteacher;
- I understand that I am responsible for all activity carried out under my username;
- I will ensure that personal data is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely;
- I will not make copies or download any school based information on my home devices;
- Personal data can only be taken out of school or accessed remotely when authorised by the Executive Headteacher or the Chair of Governors.

I agree to follow this code of conduct. I understand that the sanctions for disregarding any of the above will result in removal of access to ICT infrastructure and serious infringements may be referred to the police.

Acceptable Use Agreement for Staff

To ensure that members of staff are fully aware of their professional responsibilities when using information systems and when communicating with parents, carers and other professionals, they are asked to sign this agreement. Members of staff should consult the Online Safety Policy for further clarification of their responsibilities.

- I understand that it is a criminal offence to use any school ICT resource for a purpose not permitted by its owner;
- I understand that ICT includes a wide range of systems, including mobile phones, PDAs, digital cameras, email and social networking; and that ICT use may also include personal ICT devices when used for school business;
- I understand that school information systems may not be used for private purposes without specific permission from the Executive Headteacher;
- I understand that my use of school information systems, Internet and email may be monitored and recorded to ensure policy compliance;
- I will log off or lock the computer/device I have been using when leaving it unattended;
- I will respect system security and I will not disclose any password or security information to anyone other than an authorised ICT support person;
- I will not install any software or hardware without permission;
- I will ensure that personal data is stored securely and is used appropriately, whether in school, taken off site or accessed remotely;
- I will respect copyright and intellectual property rights;
- I will report any incidents of concern regarding children's safety to a Designated Safeguarding Lead or a member of the Senior Leadership Team;
- I will ensure that electronic communications with pupils including email and social networking are compatible with my professional role and that messages cannot be misunderstood or misinterpreted. I will only utilise the school email platform to communicate any school matters;
- I will promote online safety with pupils in my care and will help them to develop a responsible attitude to system use, communications and publishing;
- The school may exercise its right to monitor the use of information systems and Internet access, to intercept e-mail and to delete inappropriate materials where it believes unauthorised use of the school's information system may be taking place, or the system may be being used for criminal purposes or for storing unauthorised or unlawful text, imagery or sound.

I agree to follow this code of conduct. I understand that the sanctions for disregarding any of the above will result in removal of access to ICT infrastructure and serious infringements may be referred to the police.

Acceptable Use Agreement for Pupils

As pupils at Burbage Grove Road Schools Federation, we want you to enjoy using the computers within our school.

It is very important that you:

Always look after the equipment

Be **kind** to one another, **sharing** the equipment nicely and fairly

Make sure you use **kind language** when talking to others through the computer

Only use websites or play games that your teacher has **allowed** you to use

Tell your teacher if anything or anyone makes you **feel uncomfortable** or if there is a problem

Do not bring to school any mobile phone or tablet from home (unless agreed otherwise with the school).

Remember not everything you read on The internet may be true

Remember that sometimes attachments can contain **viruses or bugs** so only open attachments from people you know.

I UNDERSTAND THAT THIS IS IMPORTANT, SO I PROMISE TO:

- ✓ Only use The internet and email when an adult is nearby
- ✓ Only click on icons and links when I know they are safe
- ✓ Only send friendly and polite messages
- ✓ Never share my usernames and passwords
- ✓ Always tell an adult if I see something I don't like on a screen

**LOCKI SAYS
KEEP SAFE**
